Composer's Note

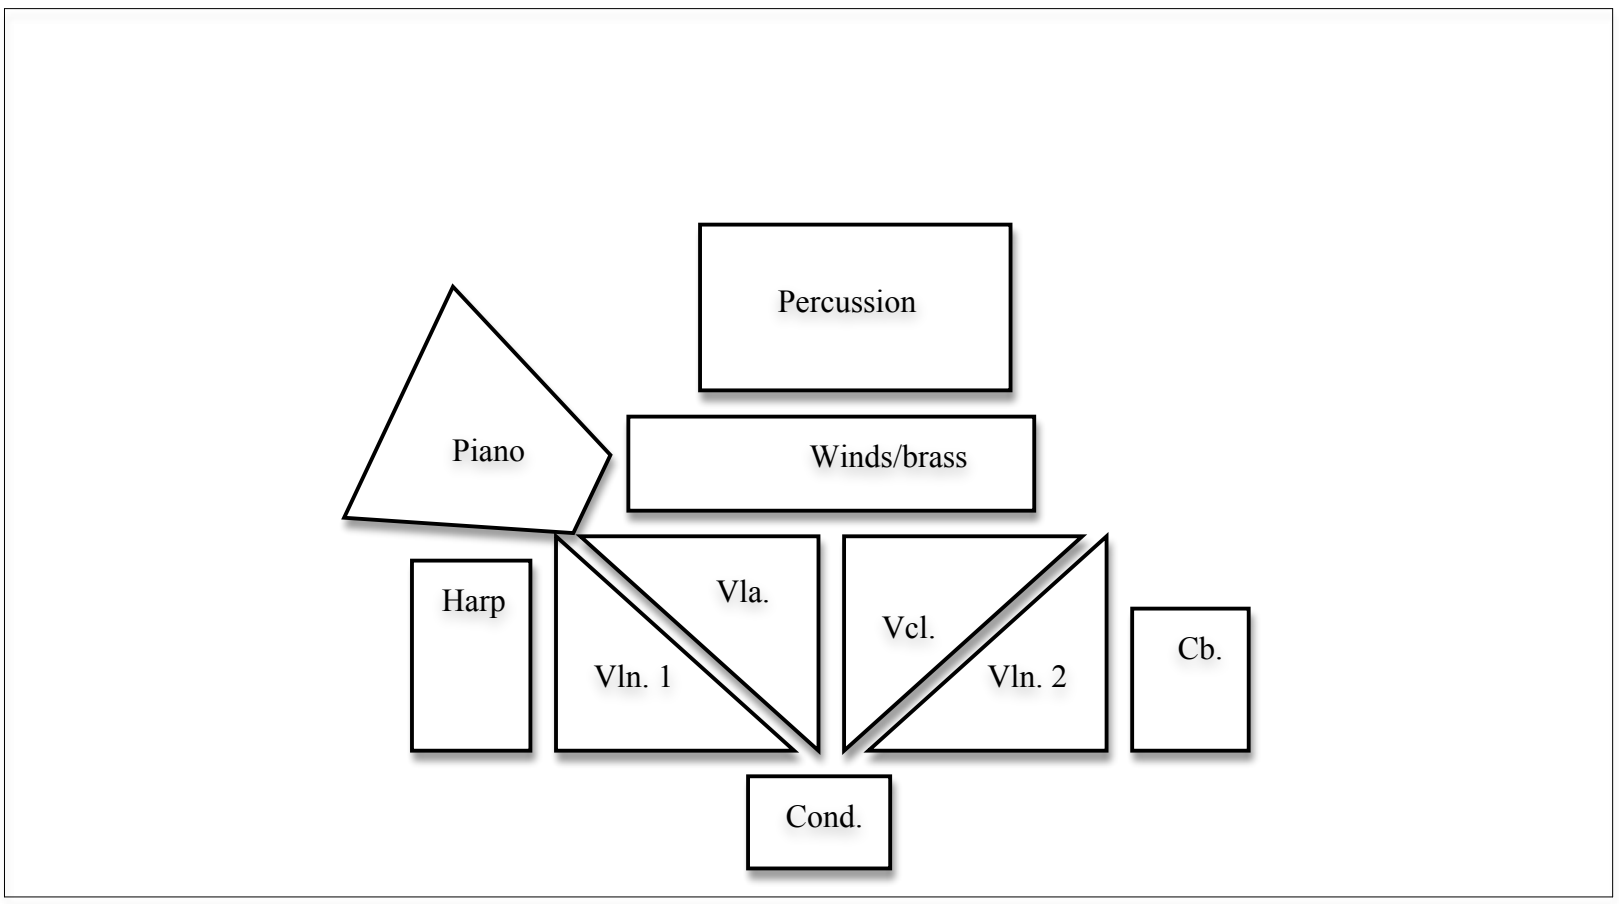

Two Vestiges is a work that is based upon two impressions. I recently assisted in a series of recording sessions with the Luxembourg Philharmonie whereby they recorded three works by Japanese composer Tosio Hosokawa. The first, the *Cello Concerto*, contained three beautiful sonorities in its opening bars. I plucked these sonorities, and replanted them in my own sonic plot, and they serve as the basis of the first movement, *Japanese Garden (karesansui).*

While living in Köln, Germany, I attended an exhibition of the artist Ursula Burghardt (1928 – 2008), who was the wife of composer Mauricio Kagel (1931 – 2008). She never considered herself an artist, and until her death in 2008, a mere two weeks after Kagel's death, her works were virtually unknown. Near the end of her life, she became weak and unable to make sculptures. Therefore, she began to draw three-dimensional works, which were in her mind as sculptures that she wanted to make, but could not. The second vestige, *Ribbon Sculpture*, was inspired by one of these drawings, and the melodic material is threaded through a series of sonorities, representative of the three-dimensional world in which she wanted to create.

Notation

For Winds:

Breath only, with very little definite pitch.

Breathy, but with a clear definite pitch.

For Strings:

Slow, wide vibrato, accidentals indicate direction, quasi synchronous.

Heavy pressure with bow (pitch may occur as necessary when dynamics soften).

Dampen lowest two strings and bow rapidly on the bridge to imitate wind.

NB: Only changes in harp pedaling are notated following the beginning of each movement.
